

K12 DEFENSE

ENFORCER MOBILE BARRIER

TRAILER PACKAGE 6000

The Ultimate Mobile Defense

Introducing Enforcer Trailer Package 6000 – your all-in-one mobile crash barrier solution designed for rapid deployment & unmatched protection. With 60 feet of solid steel barriers (and extendable to 110+ feet using our high-strength arrestor cables), this powerhouse package is built to safeguard pedestrians, construction crews, law enforcement, and public events.

Engineered for flexibility, the Enforcer Trailer Package offers limitless configuration options to meet any site's unique needs. Whether you're securing a construction zone, public gathering, or emergency response area, setup takes just minutes. Built to Last - with Hot dip galvanized barriers and cables offering years of trouble free protection at your fingertips!

\$129,500.00

ENFORCER 1350-RVB

Go Ahead and Roll w/ It

(No Forklift Required) The Enforcer is a 10 foot, 1350 lb, Jersey style barrier made of reinforced steel and 100% manually deployable with retractable wheels (no forklift or machinery required). Once in place, wheels can be raised in seconds to secure barrier @ desired location. Optional drop-deck adjustable tilt- trailer with 3° slope, holds 6 barriers, allowing for easy loading and unloading by only one worker. The Enforcer 1350RVB is ideal for events and road closures, emergency response and access control - providing crash barrier protection for people, construction zones and facilities. Lock barriers together or separated to create walkways & drive paths for pedestrians.

\$ 14,995.00
